

Controls and compliance checklist

To complete the controls assessment checklist, refer to the information provided in the [scope, goals, and risk assessment report](#). For more details about each control, including the type and purpose, refer to the [control categories](#) document.

Then, select “yes” or “no” to answer the question: *Does Botium Toys currently have this control in place?*

Controls assessment checklist

Yes	No	Control
	• Least Privilege • Disaster recovery plans • Password policies • Separation of duties	
•	• Firewall • Intrusion detection system (IDS) • Backups	
•	• Antivirus software • Manual monitoring, maintenance, and intervention for legacy systems • Encryption • Password management system	
•	• Locks (offices, storefront, warehouse)	
•	• Closed-circuit television (CCTV) surveillance	
•	• Fire detection/prevention (fire alarm, sprinkler system, etc.)	

To complete the compliance checklist, refer to the information provided in the [scope, goals, and risk assessment report](#). For more details about each compliance regulation, review the [controls, frameworks, and compliance](#) reading.

Then, select “yes” or “no” to answer the question: *Does Botium Toys currently adhere to this compliance best practice?*

Compliance checklist

Payment Card Industry Data Security Standard (PCI DSS)

Yes	No	Best practice
		• Only authorized users have access to customers’ credit card information. • Credit card information is stored, accepted, processed, and transmitted internally, in a secure environment. • Implement data encryption procedures to better secure credit card transaction touchpoints and data. • Adopt secure password management policies.

General Data Protection Regulation (GDPR)

Yes	No	Best practice
		• E.U. customers’ data is kept private/secured. • There is a plan in place to notify E.U. customers within 72 hours if their data is compromised/there is a breach. • Ensure data is properly classified and inventoried. • Enforce privacy policies, procedures, and processes to properly document and maintain data.

System and Organizations Controls (SOC type 1, SOC type 2)

Yes	No	Best practice
		• User access policies are established. • Sensitive data (PII/SPII) is confidential/private.
		• Data integrity ensures the data is consistent, complete, accurate, and has been validated.
		× Data is available to individuals authorized to access it.

This section is *optional* and can be used to provide a summary of recommendations to the IT manager regarding which controls and/or compliance best practices Botium Toys needs to implement, based on the risk posed if not implemented in a timely manner.

Recommendations (optional): In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.

Encryption must be enforced immediately to avoid a disaster.

A Password management systems must be enforced.

A disaster recovery plan must be put in place
